Camille L. Grasso

Neuropsychologist & PhD in Cognitive Neuroscience

at Laboratoire de Psychologie et Neurocognition (**LPNC**), Grenoble-Alpes University, CNRS, Grenoble, France
and **Wake Forest University School of Medicine**, North Carolina, USA
grassocamille@gmail.com | Website: https://grassocamille.netlify.app ORCID: 0000-0002-7549-7395

PROFESSIONAL EXPERIENCE

From 01/06/2026 to 30/06/2029	**Post-doctoral researcher - Marie Skłodowska-Curie Global Fellowship** at Wake Forest University School of Medicine, North Carolina, **USA**. Advisor: Dr. Kenneth Kishida (outgoing phase) and at Laboratoire de Psychologie et Neurocognition (LPNC), Grenoble-Alpes University, CNRS, Grenoble, France. Advisor: Dr. Nathan Faivre (LPNC, returning phase). **Research focus**: Investigating the neural and neurochemical mechanisms of temporal perception. The MIND project integrates electrochemical (fast-scan cyclic voltammetry) and electrophysiological (sEEG, EEG, LFPs) approaches to uncover how phasic dopamine fluctuations shape subjective duration.
01/09/2025 to 31/05/2026	**Post-doctoral researcher** at Laboratoire de Psychologie et Neurocognition (LPNC), Grenoble-Alpes University, CNRS, Grenoble, France. Advisor: Dr. Nathan Faivre (LPNC). **Visiting researcher (7 months),** Wake Forest University School of Medicine, North Carolina, USA. Advisor: Dr. Kenneth Kishida. **Research focus:** Electrophysiological (sEEG, LFPs) and electrochemical (fast-scan cyclic voltammetry) correlates of duration of conscious experiences in humans. This work combines research conducted at the LPNC (CNRS, Grenoble) with a 7-month research stay in the USA focused on human voltammetry and intracranial recordings.
13/02/2023 –30/06/2025	**Post-doctoral researcher** at UNICOG, CEA Joliot, NeuroSpin, CNRS & INSERM, Paris-Saclay, France. Advisor: Dr. Virginie van Wassenhove (CEA). **Research focus:** Neural representation of duration, combining EEG, multivariate analyses, virtual reality, and representational similarity analysis to investigate contextual and geometric properties of time perception.
01/11/2018 – 05/05/2022	**PhD student in cognitive Psychology** at CRPN (Centre de Recherche en Psychologie et Neuroscience), CNRS, Aix-Marseille University. Co-supervised by Dr. Johannes Ziegler (CRPN), Dr. Marie Montant (CRPN) & Dr. Jennifer Coull (CRPN). LPC, CNRS, Aix-Marseille University, France **Research focus:** Representation of temporal order and abstract temporal concepts, informed by neural reuse and correlational learning frameworks. Using behavioral and sensorimotor measures, I investigated how temporal order is encoded and structured in human cognition.
01/09/2020 – 31/08/2022	**ATER – Teaching assistant –** Department of Cognitive Psychology
01/10/2016 – 31/08/2017	**MSc Internship -** Neurology department, Epilepsy and Neurological Malaise Unit, CHU La Tronche (Grenoble), France. Neuropsychological assessments of epileptic patients before and after surgery, and neuropsychological assessments to detect neurodegenerative disorders.

Research work: Laboratory of Psychology and NeuroCognition (LPNC), University of Grenoble Alpes, France. Co-supervised by Dr. Nathalie Fournet (PhD, LPNC), Lassus (Neuropsychologist), and Christelle Mosca (Neuropsychologist).

01/10/2015 – 31/08/2016 **MSc Internship -** Neurology department, Neurovascular service, CHU La tronche, France. Neuropsychological assessments of patients following brain injury (head trauma, stroke).

Research work: Laboratory of Psychology et NeuroCognition (LPNC), University of Grenoble Alpes, France. Supervised by Dr. Christopher Moulin (PhD, LPNC).

EDUCATION

01/11/2018 – 31/08/2022	**PhD in cognitive psychology -** Thesis defended the 05 May 2022
01/09/2016 – 31/08/2017	**Master 2 – Neuropsychology,** University of Savoie Mont Blanc, Chambéry, France
01/09/2015 – 31/08/2016	**Master 1 – Cognitive and Social Psychology,** Grenoble Alpes University, Grenoble, France
01/09/2012 – 31/08/2015	**Bachelor degree in Psychology,** University Grenoble Alpes, Grenoble, France

Workshop — WIRED, Workshop on Intracranial Recordings in humans Epilepsy, DBS, at the Institut du Cerveau et de la Moelle épinière, Paris, March 2023

TEACHING (581h)

All levels (master, PhD, Postdoc, permanent researcher) — **Decoding EEG/MEG signals using MNE python** (4h), UNICOG, NeuroSpin, CEA Paris-Saclay

Bachelor courses — **English,** MIASH, UFR SHS, UGA, Grenoble
- 1st year of bachelor's degree (18h)

Cognitive Psychology, Department of Psychology, UFR ALLSH
- 2nd year of bachelor's degree (240h)
- 1st year of bachelor's degree (192h)

Supervision of research theses (bachelor degree) in Cognitive Psychology, Department of Psychology, UFR ALLSH
- 3rd year of bachelor's degree (19h)

Developmental Psychology and Experimental Methodology, Department of Psychology, UFR ALLSH
- 3rd year of bachelor's degree, UFR ALLSH (60h)

Master courses — **Neurosciences of Emotion and Motivation,** Department of Neuroscience & Department of Cognitive Sciences, UFR Science
- 1st year of master's degree (48h)

RESEARCH WORK SUPERVISION

- Igor Gornostaev, M1 research in cognitive science, UGA. (2025)
- Gautier Artru, M2 Central Supelec, Paris-Saclay Uniersity. (2024)
- Cindy de Ajauro, M2 AIRE life science, Learning Planet Institute, University of Paris Cité. Currently research engineer at INRIA. (2023)
- Coralie Faby, M1 Clinical and developmental psychology, University of Aix-Marseille. (2019)
- Coralie Bertou, M1 Clinical and developmental psychology, University of Aix-Marseille. (2019)
- Benjamin Cassar, M2 Basic and Applied Cognitive Sciences, Lyon 2. (2018)
- Supervision of the research theses of 20 undergraduate students during their laboratory internships as part of their bachelor's degree program. (2018-2023)

RELATED SCIENTIFIC ACTIVITIES

Academic services

2024-now	Member of the Journal Club Gender Equity
2024-now	Member of the scientific board of FaST (French association for the Study of Time)
2024	Co-organiser of an international workshop on temporal cognition, as part of the FaST committee, October 2024, Paris-Saclay, France
2022	Co-organiser of an international workshop on temporal cognition (timecog2022 – Perspectives on temporal cognition), June 2022, Marseille, France.
2018- 2022	Representative of the PhD students of the Cognitive Psychology Laboratory. Aix-Marseille, France.
2021- present	Member of the Psychological Science Accelerator
2019 – 2021	Vice-president of the Association of Young Researchers of Federation 3 (AJC3C). Marseille, France.
2018 – 2022	Member of the Committee for Scientific Animation (COAS). Marseille, France.
May 2019	Volunteer at the international conference NeuroFrance. Society for Neuroscience. Aix-Marseille, France.

Public outreach

2019 & 2020	Coordinator of the international festival Pint of Science. Aix-Marseille, France.
2020	Manager of the popular science event NeuroSchool 'Emotionally yours'. Aix-Marseille, France.

REVIEWING ACTIVITIES

Cognition

Journal of Neurolinguistics

Journal of Cognitive Neuroscience

GRANT AND AWARDS

- **Marie curie globale post-doctorale fellowship ~ €440 000 -** Multiscale Investigation of the Neural and electrochemical correlates of temporal Distortions – MIND (2026)
- **Neurodis Mobility Grant - Fondation Neurodis** (2025)**.** Competitive mobility fellowship supporting a 7-months research stay at Wake Forest University Health Sciences (USA), **~€10,000.**
- **Seal of Excellence Award** from the European Commission Horizon Europe for the project Multiscale Investigation of the Neural and electrochemical correlates of temporal Distortions – MIND (2024)
- **PhD Thesis Prize** of Aix-Marseille University (2023)
- ILCB & FR3C **research funding** to support the organization of the workshop of temporal cognition (2022), **1200€**
- **Competitive PhD grant** from the French Ministry of Higher Education, Research, and Innovation.

TECHNICAL SKILLS

Methods

Eyetracking, surface and intracranial electroencephalography, human fast scan cyclic voltammetry, mental chronometry, multivariate pattern analysis (decoding), representational similarity analysis

Computer tools

Programming: R, Python, JavaScript

Experiment design: OpenSesame, PsychoPy

Electrophysiological signal processing: mne-Python

Statistical modelling: R

Collaborative and reproducible writing: RMarkdown, LATEX, Overleaf, Zotero

Open Science: Github, Open Science Framework, ArXiv, BioRxiv
